RE: 2014 Frozen JHS Cohort Surveillance File Distribution (UC7387, UC7388, UC7389, UC7390)

The following frozen files are now available:

- JHS Cohort surveillance CHD for event years 1987-2014 (CHD14.zip)
- JHS Cohort surveillance HF for event years 2005-2014 (HF14.zip)
- JHS Cohort surveillance Stroke for event years 1987-2014 (STR14.zip)
- JHS Cohort Incidence CHD, HF and Stroke for event years 1987-2014 (JHS_INC_BY14.zip)

The zipped files are being distributed via the secure CSCC LiquidFiles.

These files represent the most current JHS cohort surveillance data and should be used in any new analyses. Please archive previously distributed data.

Data books (included in the zip files described above) provide variable information for all distributed data sets.

As with all JHS data these files are confidential and should not be distributed beyond appropriate ARIC collaborators at your institution. We also request that you keep a record of who receives access to these files.

If you have any questions, please contact Lisa Reeves at lisa_reeves@unc.edu
